

green tree frog care sheet

habitat

10-20 gallon tank with secure lid. Provide large pieces of driftwood, artificial non-toxic plants, bark and branches. Mulch type bedding. Provide fresh clean chlorine-free water in a shallow bowl daily.

lighting

Provide a basking lamp.

temperature

Temperature should range from 68 at night, 75 to 85F during the day. Provide a basking spot of 100F. Humidity should be 60%. Mist 2 to 3x per day.

diet

Live gut-loaded crickets and worms. Sprinkle food with calcium daily and with a mineral supplement once or twice a week.
